These maps, prepared by United States engineers from surveys made during and since the war, are beautifully executed and are very valuable. General Hunton writes that he was "very much indebted to the kind-Buxton, doorkeeper of the House of Repre sentatives, who put themselves to considerable trouble and showed the most triendly courtesy to the Society in procuring these valuable donations." The Society has received the promise of

other valuable material. It has received during the week an unusually large list of new members and "renewals" of old members, and its important work seems to be making very satisfactory progress.

THE THEATRE-OLD CURIOSITY SHOP.-The severity of the weather last night kept many people from the Theatre, but there were enough brave-hearted ones who ventured out to make an audience for Miss Putnam above the average size. The management displayed enterprise in having an additional stove for the parquette, and will no doubt be encouraged to further efforts in that direction, seeing how that was appreciated and patronized. Katie as the Marchioness and Little Nell showed that she has improved a great deal. She has lost nothing of her gaiety, and she acts with more effectiveness than ever before.

The piece was presented in a way different in many respects to what we are accustomed to see. Most of the alterations were improvements. Mr. T. H. Burns as Dick Swiveller was decidedly good, though he lacked the dash and easy swing of Edwin Browne. Little Dot, who was one of the living features a decided attraction, and was made to respond to two encores by songs and dances. She is an unlawful assault, was continued because a lively little creature, and commences life upon the stage with bright prospects. As a whole the support given Katie is fair,

The members of the company generally satisfy the public, and no doubt with tempe rate weather and larger audiences they will even display decided talent.

THE GREAT REPUTATION which VEGETINE has attained in all parts of the

country as a GREAT AND GOOD MEDICINE,

at d the large number of testimonials which are Mr. CLAYTON, of Arkames, moved that the constantly being received from persons who have message of the President on Arkansas be been cured by its use, is conclusive proof of its taken up and referred to the Committee on great value. R is recommended by physicians and apothecarles. As a Blood-Purifier and Health-Restorer it has no equal.

Mr. BAYARD, of Delaware, said that yesterday an order was made to print the mes-VEGETINE is not prepared for a fancy drink sage and accompanying documents, which made from your liquors, which deblikates the sysnoon, and retired between 9 and 10 o'clock had not yet been compiled with. Are not the many testboronials given for the different comomints satisfactory to any reasonable person suffering. from the asses that they can be cured? Readthe discret bestimonthis given, and no one can doubt. In many of these cases the persons any that their palu and sufferings caunot be expressed, as in calves of Serofain, where apparently the whole body. Was one mass of compution. If VECETINE willirelleve pairs, eleanse, purify, and care such discusses, restoring the patient to perfect bealth after triling different physicians, many remedles, suffering for years, is in not conclusive proof, if you are a safferer, you can be cured? Why is this medicine performing such great cures? It works to the blood—in the circulating daid. It can be truly called the Great Blood-Purifier. The great source of discase originates in the blood, and no medicine that does not act directly upon it, to purify and removate, has any just claim upon public attention. Where the blood becomes iffeless and siagnana, either from change of weather or of climate; wint of exercise, irregular diet, or from any other cause, the VEGETINE will renew the blood, carry off the putrit humors, defanse the stomach, regulate the bowels, and impart a tone of vigor to the whole body. The conviction is, in the public mind as well as in the medical profession that the remedies supplied by the Regulate Kingdom are more safe, more successful, in the cure of disease than makeral medicines. Weserine is composed of roots, barks, and herbs. It is pleasant to take, and is perfectly safe to give an infant. Do you, peed it? Do not hustine to try it. You will pever regret it.

H. R. STRIFFNS : H. R. Shatens:

Dear Sir,—This is to certify that I have used your "Blood. Preparation" in my family for several years, and think that for scrofula, or cankerous humors, or rheumatic affections, it cannot be expected the several transfer of the s humors, or rheumaticaffections, it cannot be ex-celled, and as a blood-purifier and spring melicine or it is the best toling. I have ever used; and I have used almost everything. I can cheerfully recom-

HENRY R. STEVENS, Esq. : Dear Sir — About one year since I found myself in a feeble condition from zeneral debility: VEGR-TINE was strongly recommended to me by a friend who had been much benefited by its use. I pto-cured the article, and after using several bottles was restored to health, and discontinued its use. I was restored to health, and discontinued its use. I feel quite consider that there is no medicine superior to it for those complaints for which it is especially prepared, and would cheerfully recommended it to those who feel that they need something to register them to perfect health.

Respectfully yours,
